

## **Rotem and Mounir in Chateauneuf du Pape**

Hi

Last Tuesday , 15th of September 2009 , three days before the new moon , the Grenache Noir at the “Lieu Dit Pignan” in Chateauneuf du Pape showed 15.8 % , little yield but Myammy Fruit , skins are magnificent and a Great Year is Announced.

Why this Presentation ?? What has it to do with Rotem and Mounir ?? Oh Yeh , we had the Chance to buy two Hectares at this sandy and rocky height (just near “Rayas” , Funny) , the Grenache is a little brother for Pinot (white jus) and we both Love Chateauneuf du Pape, plus it’s just 3 hours from Beaune , we have a lot of Friends there to help us with the Vineyards , so we did it, for us producers of Crus Red and White in Burgundy to produce Red and White Chateauneuf is A very Nice Challenge and a lot of Appetite. Imagine for us in the last days , we saw Folatières and Corton Charlemagne fermenting Monday in Côte d’Or and the Grenache Blanc fermenting Tuesday in Courthezon , Bonnes Mares and Pignan are in cold maceration in the same time, YESSSSSSSSSS.

For 2009 , we’ll have a little bit of White (70 % Grenache Blanc and 10 % Each Clairette , Roussane and Bourboulenc) , it’s now fermenting in our barrels from Jupilles and start showing great.

Our Vines planted in the 1940 and 1960 gave us very little yield of 20 hls / Ha , but High concentration, it’s now macerating at very cold temperature for a week , it’s going to be aged the same way as our Grand Cru and as long as possible.

We’ll have time and pleasure to taste and talk with you about these wines , but we wanted to let you know quickly about this project that we are realizing with enthusiasm.

Thanks a lot for your support and Friendship and SEE YOU

Rotem and Mounir
